

Remote Learning

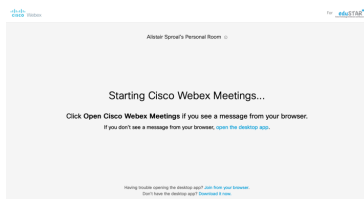

Join a Webex Teams session

Teachers will be using Webex Teams to facilitate videoconferencing sessions for students and parents that are not attending school. These sessions will be timetabled twice a day to allow students and parents to ask questions and seek assistance for the remote learning program.

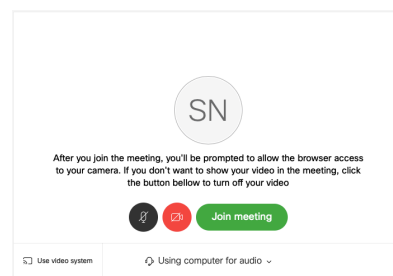

The sessions can be joined from a web browser. This is the preferred method. Additional methods, such as downloading the Webex Teams application require the students to log into the system using their school provided email. (Students in Year 4 to 6)

The link for the session will be provided by the teacher. The format for the link will be <http://eduvic.webex.com/lastname.firstname.initial> which helps to identify the correct session. The link will be sent via a Compass message or an email to parents for Foundation to Year 3 students, or within a OneNote book (Year 4 to 6 students).

- Click the link provided
 - A new browser window will open
- is not known, and dummy one can be entered)

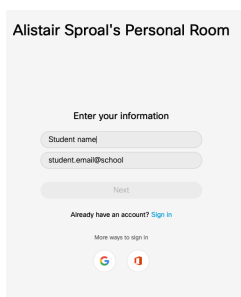

- Click Join from your browser

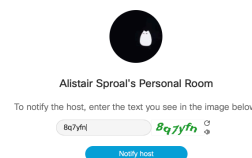

- Click Join meeting

This will notify the teacher that you wish to join the meetings. You may need to enter a verification code to proceed.

- Enter the participants (student) name
- Enter the participants (student) email address (If an email address

The session will commence.
