

# Remote Learning 2.0

Dear Parents and Caregivers,

Welcome to Remote Learning Take 2! This time around things are going to be a little bit different. We are all now familiar with Compass and Learning Tasks, so our daily Webex meetings will have a new focus.

Each morning students will read the daily bulletin which will be an overview of the Learning Tasks and any other relevant information. This will take the form of a short video which will be uploaded to Compass prior to the day.

At **9.30am** each morning students will attend a Webex meeting with their classroom teacher for approximately 45 minutes. These meetings will now become a classroom session which may include:

- Explicit teaching relating to the daily tasks
- Small group work
- Opportunities for individual conferencing
- Students at work
- Assessment tasks

As we have moved from two half hour Webex sessions to one 45 minute session we wanted to reassure you that we are still available to assist with the teaching and learning throughout the day during work hours.

We will be continuing with our formal Key Assessment Tasks (K.A.T.s) which will take place during Webex meetings. This will ensure the consistent and ongoing evaluation of student learning. During these assessment meetings, students will be required to work silently without interruption or assistance. These tasks will be used to form part of formal assessment over the second semester. The results of each K.A.T. will be uploaded to Compass for your viewing.

As per Term 2 Remote Learning, students are encouraged to have a quiet place to work and to be ready to engage in Webex meetings and their tasks for the day.

It is imperative that all students attend daily Webex sessions for continued learning growth. Attached is an overview of what the week will look like. Students are expected to be familiar with the daily tasks and bulletin before the **9.30am** Webex meeting and be prepared to clarify any instructions.

The weekly overview includes tasks to be submitted. For teachers to provide timely feedback, submitted tasks are required to be uploaded by **1pm** on the day they are due. Students will be reminded during Webex meetings to prioritise the submission task.

As this format for Remote Learning is new, it may be necessary to make adjustments along the way.

We are looking forward to working with you during Remote Learning once again.

Kind Regards,  
Middle School Teachers.
